

eLearnit 2020 Virtual Conference

Navigating Through COVID-19 to Ensure Quality Learning

9-11 June 2020

Dear Sir / Madame,

We would like to express our thanks in your vital contribution to eLearnit 2020. It has brought robust value to the learning experience. We have received questions from our attendees that were not put forward during the live session. We hope you do not mind answering them so these may be uploaded onto the conference website as additional resource. You may choose not to answer any questions that were already tackled during the live session. Please insert your responses after each question below.

Name of Speaker: Dr. Abdul Sattar Khan

Date and Time of Presentation: 9th June 2020

Title of Presentation: Teaching Communication Skills virtually

Questions:

1. How to ensure that learners in primary level are learning technology skills when they have little english language?

Answer:

This is really a good question. Well, our students learn English as a pre-request for MBBS course, as our whole course teaches in English. They not only have to learn English, also need to pass the examination and achieve a certain level of grades in order to get an admission in medical college. However, still it is difficult to learn and teach in the English language and it could be one of the hurdles for their learning suitably. Let me inform that majority students cope the situation very promptly, however, a few are still stragglers who sometimes need counseling session for their guidance.
